

Our promise: to save lives and end breast cancer forever by empowering people, ensuring quality of care for all and energizing science to find the cures.

Happy New Year! I want to thank each and every one of you for your donation and continued commitment to **Susan G. Komen Dallas County**. Together we are working towards our bold goal of reducing breast cancer deaths in the U.S. by 50% by 2026.

I'm so proud of the amazing work **YOU** made possible this past year. Once again the Susan G. Komen® Dallas Race for the Cure hit the \$1.1 million mark. Giving us the ability to invest these donations back into Dallas County through [local programs that provide breast healthcare](#) to uninsured and underinsured women and men.

The year 2020 will bring hope and change, with the announcement of our area grantees at [Promise Breakfast](#). Each year we highlight the life-saving programs that will make a lasting impact in Dallas County and showcase our **MISSION** with expert speakers in breast health. I hope to see you there!

We know that more than 42,000 men and women in the U.S. lose their life each year from breast cancer. For the many of us that have friends and family affected, it is a constant reminder to do **MORE** and to continue this fight. Because of you we can make a change, because of you we can save lives.

Your partner in the fight,
